RE: Integrating Urban Growth Management Functional Plan Compliance and  
Performance Measures

The Urban Growth Management Functional Plan, originally adopted unanimously by the Metro Policy Advisory Committee and the Metro Council in 1996, regulates how local governments implement the 2040 Growth Concept. Local governments in the region are required to comply with the Plan's provisions and each year Metro is required to submit a compliance report to the Metro Council detailing each local government's compliance with the Functional Plan.

Elected officials and staff from throughout the region have identified several issues with the current approach to compliance.

- Compliance requirements tend to be focused more on reporting rather than a more substantive evaluation of whether and how 2040 is being implemented.
- Many of the requirements in the Functional Plan are prescriptive. Local governments want more flexibility to meet regional goals.
- Local governments in the region have limited staff resources.

With the New Look at Regional Choices/Making the Greatest Place and Performance Measures projects underway at Metro, now is an appropriate time to revisit how Metro approaches compliance. During the next two years, Metro will be working with you through the Metro Policy Advisory Committee and with your staff through the Metro Technical Advisory Committee to integrate compliance with performance standards. The goal of this endeavor is to develop and use performance standards to evaluate progress in implementing the 2040 Growth Concept.

As a result, Metro will suspend certain Functional Plan reporting requirements, revise Functional Plan titles as needed, continue current compliance requirements for the most recent changes including Title 4 (Industrial and Employment Areas) and Title 13 (Nature in Neighborhoods), and change the annual compliance report. These changes and what local jurisdictions need to do are detailed in the attached sheet.

I believe that integrating compliance with performance measures will result in a more meaningful evaluation and assessment of how the region as a whole is achieving the goals set out in the 2040 Growth Concept. I look forward to continuing our work together.
